EDO-Qld SEQ Regional Plan Workshops - February 2005 (Revised 1 Feb 05)

The landmark draft SEQ Regional Plan which overrules local planning schemes and which sets the agenda for our region for the next generation is out for public comment. It is important you become informed and have your say! Public submissions on the draft Plan are due on 28 February 2005.

EDO-Qld is running a series of workshops at various locations on the Plan. Come and hear an experienced team, at most venues including a conservation solicitor, environmental campaigner and town planner. Ask your questions!

This is essential for everyone concerned about the future of nature conservation, urban sprawl and environmental sustainability.

Cost is a gold coin donation and workshops are scheduled:
