ENVIRONMENTAL DEFENDERS OFFICE LIMITED ABN 72 002 880 864

Directors report for the year ended 30 June 2020

Your directors present this report on the Entity for the financial year ended 30 June 2020.

Directors

The following persons held the office of director during the year and up to report date:

Dr Bronwyn Darlington

The Hon. Kevin Rozzoli AM

Mr Paul Brown

Ms Jane Wilder

Mr Jeff Smith

Ms Catherine Hathaway

Mr Joe Morrison

Prof Jan McDonald

Ms Susanne Behrendt

The Hon. Michael Barker

Dr Kate Galloway

Mr Pepe Clarke

Mr Phillip Vernon

Mr Brent Wallace

ABN 72 002 880 864

Directors report (continued) for the year ended 30 June 2020

Principal Activities

The principal activity of the entity during the financial year of the company during the course of the year was Provision of Environmental Law Services. There have been no significant changes in the nature of these activities during the year.

Short-term and Long-term Objectives

The entity's short-term objectives are:

- Effective legal protection of the environment.
- An empowered community.
- · Leadership & influence.
- A dynamic sustainable organization.

The entity's long-term objective is to contribute to a sustainable environment protected through the rule of law.

Strategies

To achieve its stated objectives, the entity has adopted the following strategies:

- · Public interest lawyering.
- · Policy and law reform.
- Community legal education.
- Multi-disciplinary approach supported by sound science.
- · Communications and media.

New Accounting Standards Implemented

The Entity has implemented three new Accounting Standards that are applicable for the current reporting period and have come into effect, which are included in the results. AASB 15: *Revenue from Contracts with Customers*, AASB 1058: *Income of Not-for-Profit Entities* and AASB 16: *Leases* have been applied using the cumulative effective method; that is, by recognising the cumulative effect of initially applying AASB 15, AASB 1058 and AASB 16 as an adjustment to the opening balance of equity at 1 January 2019. Therefore, the comparative information has not been restated and continues to be reported under AASB 118: *Revenue*, AASB 117: *Leases* and AASB 1004: *Contributions*. Also, to note in relation to AASB 16 is that the Entity applied the temporary relief for peppercorn leases under AASB 2018-8 to measures the right-of-use assets at cost on initial recognition. Further information is provided in Note 1.

ABN 72 002 880 864

Directors report (continued) for the year ended 30 June 2020

Merger

On 08 August 2019, the members of Environmental Defenders Office Limited (EDO Ltd) unanimously resolved to merge with the other seven EDO Offices around Australia to form a single, national entity. Extraordinary general meetings of the members of the other seven EDOs were held and each entity resolved unanimously in favour of the merger in the subsequent four weeks. By agreement, EDO Ltd was the merger vehicle and Transferor in the merger transaction; the other seven EDO Offices were Transferees. By 20 December 2019 the total assets, liabilities and staff of the seven Transferees had been transferred to EDO Ltd.

The immediate impact of the merger was to approximately double the size of EDO Ltd financially and operationally. Clients, donors, members and community relationships were carried over in the merger effectively expanding the service delivery, operations and reach of EDO Ltd from single jurisdictions to an Australia-wide jurisdiction in a short space of time. In anticipation of this, the expansion of operational and business development teams, and the adoption or introduction of systems and technology, were implemented to adequately support rapid organisational growth. Finance, business development and operational functions were centralised prior to merger. A strategic planning process was undertaken in early 2020 and determined the future structure of the legal teams and their priorities. State government and philanthropic funders were supportive of the merger with all pre-merger grants novated or assigned to EDO Ltd. All major philanthropic relationships were successfully maintained through the merger process.

As at 30 June 2020, EDO Ltd was operating with 64 staff based out of nine locations in all eight states and territories of Australia.

Key Performance Measures

The company measures its performance through the use of both qualitative and quantitative indicators which are identified in the Strategic Plan of the organisation and accompanying dashboards. These are approved and monitored through verbal and written reports to the Board of Directors. Copies of the plan and dashboards are available to members on request.

After Balance Date Events

No other known matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the company's operations, the results of those operations or the state of affairs of the company in subsequent financial years.

Future Developments

The company expects to maintain the present status and a similar level of operations. EDO Ltd has been largely dependent on grants as its major source of income. Although the level of income from grants from the Public Purpose Fund and from the Commonwealth Government has decreased since 2012, a range of alternative grants have been secured for its activities until 30 June 2020. At the same time, EDO Ltd is increasing the proportion of its income from alternative independent sources such as donations and fees; it has significant contributions secured for 2020-2021.

Environmental Issues

The company's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a State or Territory.

ABN 72 002 880 864

Directors report (continued) for the year ended 30 June 2020

Dividends

The Memorandum of Association of the company prohibits the company from paying dividends and, accordingly, no dividends have been declared or paid during the financial year.

Options

No options over issued shares or interests in the company were granted during or since the end of the financial year. Furthermore, there were no options outstanding at the date of this report.

Liability of Members

The entity is registered with the Australian Securities and Investments Commission as well as the Australian Charities and Not-for-profits Commission and is a company limited by guarantee. If the company is wound up, the constitution states that each member may be required to contribute a maximum of \$10.00 each towards meeting any outstanding obligations of the Entity. As at 30 June 2020, the total amount that members of the entity are liable to contribute if the company is wound up is \$530 (2019: \$520).

Auditor's Independence Declaration

The lead auditor's independence declaration for the year ended 30th June 2020 has been received and can be found on page 7 of the financial report.

This directors' report is signed in accordance with a resolution of the Board of Directors.

AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 60-40 AUSTRALIAN CHARITIES AND NOT-FOR-PROFITS COMMISSION ACT 2012 TO THE DIRECTORS OF ENVIRONMENTAL DEFENDERS OFFICE LIMITED

In accordance with Subdivision 60-C of the *Australian Charities and Not-for-profits Commission Act 2012*, I am pleased to provide the following declaration of independence to the directors of Environmental Defenders Office Limited. As the lead audit partner for the audit of the financial report of Environmental Defenders Office Limited for the year ended 30th June 2020, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- i. the auditor independence requirements of the *Australian Charities and Not for Profits Commission Act 2012* in relation to the audit; and
- ii. any applicable code of professional conduct in relation to the audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

The financial statements cover Environmental Defenders Office Limited as an individual entity, incorporated and domiciled in Australia limited by guarantee.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Basis of Preparation

These general purpose financial statements have been prepared in accordance with the *Australian Charities and Not-for-profits Commission Act 2012* and Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board. The Entity is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

The financial statements, except for the cash flow information, have been prepared on an accrual basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The amounts presented in the financial statements have been rounded to the nearest dollar.

Accounting Policies

Revenue

Revenue recognition

The Entity has applied AASB 15: Revenue from Contracts with Customers (AASB 15) and AASB 1058: Income of Not-for-Profit Entities (AASB 1058) using the cumulative effective method of initially applying AASB 15 and AASB 1058 as an adjustment to the opening balance of equity at 1 January 2019. Therefore, the comparative information has not been restated and continues to be presented under AASB 118: Revenue and AASB 1004: Contributions. The details of accounting policies under AASB 118 and AASB 1004 are disclosed separately since they are different from those under AASB 15 and AASB 1058, and the impact of those changes is disclosed in Note 1.

In the current year

Contributed assets

On initial recognition of an asset, the Entity recognises related amounts being contributions by owners, lease liability, financial instruments, provisions, revenue or contract liability arising from a contract with a customer.

The Entity recognises income immediately in profit or loss as the difference between the initial carrying amount of the asset and the related amounts.

Operating grants, donations and bequests

When the Entity receives operating grant revenue, donations or bequests, it assesses whether the contract is enforceable and has sufficiently specific performance obligations in accordance to AASB 15.

When both these conditions are satisfied, the Entity:

- identifies each performance obligation relating to the grant;
- recognises a contract liability for its obligations under the agreement; and
- recognises revenue as it satisfies its performance obligations.

Where the contract is not enforceable or does not have sufficiently specific performance obligations, the Entity:

- recognises the asset received in accordance with the recognition requirements of other applicable
 Accounting Standards (for example AASB 9, AASB 16, AASB 116 and AASB 138);
- recognises related amounts (being contributions by owners, lease liability, financial instruments, provisions, revenue or contract liability arising from a contract with a customer); and
- recognises income immediately in profit or loss as the difference between the initial carrying amount of the asset and the related amount.

If a contract liability is recognised as a related amount above, the Entity recognises income in profit or loss when or as it satisfies its obligations under the contract.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

Capital grants

When the Entity receives a capital grant, it recognises a liability for the excess of the initial carrying amount of the financial asset received over any related amounts (being contributions by owners, lease liability, financial instruments, provisions, revenue or contract liability arising from a contract with a customer) recognised under other Australian Accounting Standards.

The Entity recognises income in profit or loss when or as the Entity satisfies its obligations under terms of the grant.

Interest income

Interest income is recognised using the effective interest method.

Dividend income

The Entity recognises dividends in profit or loss only when the Entity's right to receive payment of the dividend is established.

All revenue is stated net of the amount of goods and services tax.

In the comparative period

Non-reciprocal grant revenue was recognised in profit or loss when the Entity obtained control of the grant and it was probable that the economic benefits gained from the grant would flow to the Entity and the amount of the grant could be measured reliably.

If conditions were attached to the grant which must be satisfied before the Entity was eligible to receive the contribution, the recognition of the grant as revenue was deferred until those conditions were satisfied.

When grant revenue was received whereby the Entity incurred an obligation to deliver economic value directly back to the contributor, this was considered a reciprocal transaction and the grant revenue was recognised in the statement of financial position as a liability until the service had been delivered to the contributor; otherwise, the grant was recognised as income on receipt.

Donations and bequests were recognised as revenue when received.

Interest revenue was recognised using the effective interest method, which for floating rate financial assets is the rate inherent in the instrument. Dividend revenue was recognised when the right to receive a dividend had been established. Rental income from operating leases was recognised on a straight-line basis over the term of the relevant leases.

Revenue from the rendering of a service was recognised upon the delivery of the service to the member.

b. Fair Value of Assets and Liabilities

The Entity measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Entity would receive to sell an asset or would have to pay to transfer a liability in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the Entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the Entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

c. Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated, less, where applicable, accumulated depreciation and any impairment losses.

Plant and equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1(g) for details of impairment).

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Entity and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in profit or loss in the financial period in which they are incurred.

Plant and equipment that have been contributed at no cost or for nominal cost are recognised at the fair value of the asset at the date it is acquired.

d. Depreciation

The depreciable amount of all fixed assets, including buildings and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over the asset's useful life to the Entity commencing from the time the asset is available for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rate used for each class of depreciable assets is:

Class of Fixed Asset

Depreciation Rate

Plant and equipment

20%

The assets' residual values and useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss in the period in which they arise. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained surplus.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

e. Leases

The Entity as lessee

At inception of a contract, the Entity assesses if the contract contains or is a lease. If there is a lease present, a right-of-use asset and a corresponding lease liability is recognised by the Entity where the Entity is a lessee. However, all contracts that are classified as short-term leases (i.e. a lease with a remaining lease term of 12 months or less) and leases of low-value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Initially, the lease liability is measured at the present value of the lease payments still to be paid at commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the Entity uses the incremental borrowing rate.

Lease payments included in the measurement of the lease liability are as follows:

- fixed lease payments less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options if the lessee is reasonably certain to exercise the options;
- lease payments under extension options if the lessee is reasonably certain to exercise the options;
 and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease

The right-of-use assets comprise the initial measurement of the corresponding lease liability as mentioned above, any lease payments made at or before the commencement date, as well as any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest. Where a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Entity anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

f. Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Entity commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain significant financing component or if the practical expedient was applied as specified in AASB 15.63.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

Classification and subsequent measurement

Financial liabilities

Financial liabilities are subsequently measured at:

- amortised cost; or
- fair value through profit and loss.

A financial liability is measured at fair value through profit and loss if the financial liability is:

- a contingent consideration of an acquirer in a business combination to which AASB 3 applies;
- held for trading; or
- initially designated as at fair value through profit or loss.

All other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in profit or loss over the relevant period.

The effective interest rate is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

A financial liability is held for trading if it is:

incurred for the purpose of repurchasing or repaying in the near term;

part of a portfolio where there is an actual pattern of short-term profit taking;

a derivative financial instrument (except for a derivative that is in a financial guarantee contract or a derivative that is in an effective hedging relationship); or

any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

The change in fair value of the financial liability attributable to changes in the issuer's credit risk is taken to other comprehensive income and is not subsequently reclassified to profit or loss. Instead, it is transferred to retained earnings upon derecognition of the financial liability.

If taking the change in credit risk in other comprehensive income enlarges or creates an accounting mismatch, then these gains or losses are taken to profit or loss rather than other comprehensive income.

A financial liability cannot be reclassified.

Financial assets

Financial assets are subsequently measured at:

- amortised cost;
- fair value through other comprehensive income; or
- fair value through profit and loss

on the basis of the two primary criteria, being:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial assets.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

A financial asset is subsequently measured at amortised cost when it meets the following conditions:

- the financial asset is managed solely to collect contractual cash flows; and
- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates.

A financial asset is subsequently measured at fair value through other comprehensive income when it meets the following conditions:

- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates; and
- the business model for managing the financial asset comprises both contractual cash flows collection and the selling of the financial asset.

By default, all other financial assets that do not meet the conditions of amortised cost and the fair value through other comprehensive income's measurement condition are subsequently measured at fair value through profit or loss.

The Entity initially designates financial instruments as measured at fair value through profit or loss if:

- it eliminates or significantly reduces a measurement or recognition inconsistency (often referred to as "accounting mismatch") that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases;
- it is in accordance with the documented risk management or investment strategy and information about the groupings was documented appropriately, so the performance of the financial liability that was part of a group of financial liabilities or financial assets can be managed and evaluated consistently on a fair value basis; and
- it is a hybrid contract that contains an embedded derivative that significantly modifies the cash flows otherwise required by the contract.

The initial designation of the financial instruments to measure at fair value through profit and loss is a one-time option on initial classification and is irrevocable until the financial asset is derecognised.

Equity instruments

At initial recognition, as long as the equity instrument is not held for trading or is not a contingent consideration recognised by an acquirer in a business combination to which AASB 3 applies, the Entity made an irrevocable election to measure the equity instruments in other comprehensive income, while the dividend revenue received on underlying equity instruments investment will still be recognised in profit or loss.

Regular way purchases and sales of financial assets are recognised and derecognised at settlement date in accordance with the Entity's accounting policy.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

Derecognition

Derecognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

Derecognition of financial liabilities

A liability is derecognised when it is extinguished (i.e. when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability, is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Derecognition of financial assets

A financial asset is derecognised when the holder's contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

All of the following criteria need to be satisfied for derecognition of a financial asset:

- the right to receive cash flows from the asset has expired or been transferred;
- all risk and rewards of ownership of the asset have been substantially transferred; and
- the Entity no longer controls the asset (i.e. it has no practical ability to make unilateral decisions to sell the asset to a third party).

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of a debt instrument classified as fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On derecognition of an investment in equity which was elected to be classified under fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Impairment

The Entity recognises a loss allowance for expected credit losses on:

- financial assets that are measured at amortised cost or fair value through other comprehensive income:
- lease receivables:
- contract assets (e.g. amount due from customers under construction contracts);
- loan commitments that are not measured at fair value through profit or loss; and
- financial guarantee contracts that are not measured at fair value through profit or loss.

Loss allowance is not recognised for:

- financial assets measured at fair value through profit or loss; or
- equity instruments measured at fair value through other comprehensive income.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

Expected credit losses are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cash flows that are due and all cash flows expected to be received, all discounted at the original effective interest rate of the financial instrument.

The Entity uses the following approaches to impairment, as applicable under AASB 9:

- the general approach;
- the simplified approach;
- the purchased or originated credit impaired approach; and
- low credit risk operational simplification.

General approach

Under the general approach, at each reporting period, the Entity assesses whether the financial instruments are credit-impaired, and if:

- the credit risk of the financial instrument has increased significantly since initial recognition, the Entity measures the loss allowance of the financial instruments at an amount equal to the lifetime expected credit losses; and
- there has been no significant increase in credit risk since initial recognition, the Entity measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

Simplified approach

The simplified approach does not require tracking of changes in credit risk in every reporting period, but instead requires the recognition of lifetime expected credit loss at all times.

This approach is applicable to:

- trade receivables; and
- lease receivables.

In measuring the expected credit loss a provision matrix for trade receivables has been used, taking into consideration various data to get to an expected credit loss (i.e. diversity of its customer base, appropriate groupings of its historical loss experience, etc.).

Purchased or originated credit impaired approach

For a financial asset that is considered to be credit-impaired (not on acquisition or originations), the Entity measures any change in its lifetime expected credit loss as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. Any adjustment has been recognised in profit or loss as an impairment gain or loss

Evidence of credit impairment includes:

- significant financial difficulty of the issuer or borrower;
- a breach of contract (e.g. default or past due event);
- Where a lender has granted to the borrower a concession, due to the borrower's financial difficulty, that the lender would not otherwise consider;
- It is probable that the borrower will enter bankruptcy or other financial reorganisation; and
- the disappearance of an active market for the financial asset because of financial difficulties.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

Low credit risk operational simplification approach

If a financial asset is determined to have low credit risk at the initial reporting date, the Entity assumes that the credit risk has not increased significantly since initial recognition and accordingly the Entity can continue to recognise a loss allowance of 12-month expected credit loss.

In order to make such determination that the financial asset has low credit risk, the Entity applies its internal credit risk ratings or other methodologies using a globally comparable definition of low credit risk.

A financial asset is considered to have low credit risk if:

- there is a low risk of default by the borrower;
- the borrower has strong capacity to meet its contractual cash flow obligations in the near term; and
- adverse changes in economic and business conditions in the longer term, may, but not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

A financial asset is not considered to carry low credit risk merely due to existence of collateral, or because a borrower has a lower risk of default than the risk inherent in the financial assets, or relative to the credit risk of the jurisdiction in which it operates.

Recognition of expected credit losses in financial statements

At each reporting date, the Entity recognises the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The carrying amount of financial assets measured at amortised cost includes the loss allowance relating to that asset.

Assets measured at fair value through other comprehensive income are recognised at fair value with changes in fair value recognised in other comprehensive income. An amount in relation to change in credit risk is transferred from other comprehensive income to profit or loss at every reporting period.

For financial assets that are unrecognised (e.g. loan commitments yet to be drawn, financial guarantees), a provision for loss allowance is created in the statement of financial position to recognise the loss allowance.

g. Impairment of Assets

At the end of each reporting period, the entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, is compared to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised in profit or loss.

Where the assets are not held primarily for their ability to generate net cash inflows – that is, they are specialised assets held for continuing use of their service capacity – the recoverable amounts are expected to be materially the same as fair value.

Where it is not possible to estimate the recoverable amount of an individual asset, the Entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Where an impairment loss on a revalued individual asset is identified, this is recognised against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that class of asset.

h. Employee Provisions

Short-term employee provisions

Provision is made for the Entity's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries, sick leave and annual leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

Other long-term employee provisions

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures, and are discounted at rates determined by reference to market yields at the end of the reporting period on high quality corporate bonds that have maturity dates that approximate the terms of the obligations. Upon the remeasurement of obligations for other long-term employee benefits, the net change in the obligation is recognised in profit or loss as part of employee provisions expense.

The Entity's obligations for long-term employee benefits are presented as non-current employee provisions in its statement of financial position, except where the Entity does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current employee provisions.

i. Cash and Cash Equivalents

Cash on hand includes cash on hand, deposits held at-call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

j. Accounts Receivable and Other Debtors

Accounts receivable and other debtors include amounts due from members as well as amounts receivable from customers for goods sold. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Accounts receivable are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Refer to Note 1(f) for further discussion on the determination of impairment losses.

k. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities, which are recoverable from or payable to the ATO, are presented as operating cash flows included in receipts from customers or payments to suppliers.

I. Income Tax

No provision for income tax has been raised as the Entity is exempt from income tax under Div. 50 of the *Income Tax Assessment Act 1997*.

m. Provisions

Provisions are recognised when the Entity has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of the reporting period.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

n. Comparative Figures

Where required by Accounting Standards, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the Entity retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, a third statement of financial position as at the beginning of the preceding period, in addition to the minimum comparative financial statements, must be disclosed.

o. Critical Accounting Estimates and Judgements

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Entity.

Credit risk

The company does not have any material credit risk exposure to any single receivable or group of receivables.

The following table details the company's trade and other receivables exposed to credit risk (prior to collateral and other credit enhancements) with ageing analysis and impairment provided for thereon. Amounts are considered as 'past due' when the debt has not been settled within the terms and conditions agreed between the company and the customer or counterparty to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there are specific circumstances indicating that the debt may not be fully repaid to the company.

The balances of receivables that remain within initial trade terms (as detailed in the table below) are considered to be of high credit quality.

NOTE 8: RIGHT OF USE ASSETS

The Entity's lease portfolio includes leased premises. These leases have an average of 4 years as their lease term.

1. Options to extend or terminate

The option to extend or terminate are contained in several of the property leases of the Entity. These clauses provide the Entity opportunities to manage leases in order to align with its strategies. All of the extension or termination options are only exercisable by the Entity. The extension options or termination options which were probable to be exercised have been included in the calculation of the Right of use asset.

Total non-current employee provisions	185,338	77,653
	733,851	275,825

Employee Provisions

Employee provisions represent amounts accrued for annual leave and long service leave.

The current portion for this provision includes the total amount accrued for annual leave entitlements and the amounts accrued for long service leave entitlements that have vested due to employees having completed the required period of service. Based on past experience, the Entity does not expect the full amount of annual leave or long service leave balances classified as current liabilities to be settled within the next 12 months. However, these amounts must be classified as current liabilities since the Entity does not have an unconditional right to defer the settlement of these amounts in the event employees wish to use their leave entitlement.

The non-current portion for this provision includes amounts accrued for long service leave entitlements that have not yet vested in relation to those employees who have not yet completed the required period of service.

The property lease commitments are non-cancellable operating leases contracted for but not recognised in the financial statements with 12 months term. Increases in lease commitments may occur in line with the consumer price index (CPI).

(b) Capital Expenditure Commitments

There are no commitments for capital expenditure

NOTE 13: EVENTS AFTER THE REPORTING PERIOD

Other than the likely ongoing financial effect of COVID-19 mentioned below, the directors are not aware of any significant events since the end of the reporting period.

In early March, the COVID-19 virus was declared a global pandemic, and it unfortunately continues to spread rapidly. Business continuity, including supply chains and consumer demand across a broad range of industries and countries, could be severely impacted for months or more, as governments and their citizens take significant and unprecedented measures to mitigate the consequences of the pandemic. Your board of directors are carefully monitoring the situation and will be evaluating all options during this time. No adjustments have been made to these financial statements as a result of this uncertainty.

Subsequent period financial reporting may include costs associated with COVID-19 that are considered to be unusual, infrequent or both. Examples of such costs may include the following:

- Refunds, discounts and reductions to lessees of facility rental fees, income from investments due to COVID-19-related closures.
- Write-downs or write-offs of investments and receivables directly related to COVID-19 relief efforts.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

NOTE 14: FINANCIAL RISK MANAGEMENT

The Entity's financial instruments consist mainly of deposits with banks, local money market instruments, short- term and long-term investments, accounts receivable and payable, and lease liabilities. The totals for each category of financial instruments, measured in accordance with AASB 9: Financial Instruments as detailed in the accounting policies to these financial statements, are as follows:

	Note	2020	2019
		\$	\$
Financial assets			
Financial assets at amortised cost:

Financial liabilities at amortised cost:			
accounts payable and other payables	8	3,276,361	710,223
Total financial assets		3,276,361	710,223

The finance committee is responsible for monitoring and managing the Entity's compliance with its risk management strategy and consists of senior board members. The finance committee's overall risk management strategy is to assist the Entity in meeting its financial targets while minimising potential adverse effects on financial performance. Risk management policies are approved and reviewed by the finance committee on a regular basis. These include credit risk policies and future cash flow requirements.

Specific Financial Risk Exposures and Management

The main risks the Entity is exposed to through its financial instruments are credit risk, liquidity risk and market risk relating to interest rate risk and other price risk.

There have been no substantive changes in the types of risks the Entity is exposed to, how these risks arise, or the Board's objectives, policies and processes for managing or measuring the risks from the previous period.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

a. Credit Risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss for the Entity.

The Entity does not have any material credit risk exposures as its major source of revenue is the receipt of interest from financial institutions and dividends from companies listed on the ASX.

Credit risk exposures

The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period is equivalent to the carrying value and classification of those financial assets (net of any provisions) as presented in the statement of financial position.

Accounts receivable and other debtors that are neither past due nor impaired are considered to be of high credit quality. Aggregates of such amounts are detailed at Note 5.

The Entity has no significant concentrations of credit risk exposure to any single counterparty or entity of counterparties. Details with respect to credit risk of accounts receivable and other debtors are provided in Note 5.

Credit risk related to balances with banks and other financial institutions is managed by the finance committee in accordance with approved board policy. Such policy requires that surplus funds are only invested with counterparties with a Standard & Poor's rating of at least AA—. The following table provides information regarding the credit risk relating to cash and money market securities based on Standard & Poor's counterparty credit ratings:

	2020	2019
	\$	\$
Cash and cash equivalents		
AA rated	8,322,552	2,574,653

b. Liquidity Risk

Liquidity risk arises from the possibility that the Entity might encounter difficulty in settling its debts or otherwise meeting its obligations in relation to financial liabilities. The Entity manages this risk through the following mechanisms:

- preparing forward-looking cash flow analyses in relation to its operating, investing and financing activities:
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- only investing surplus cash with major financial institutions; and
- comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

The table below reflects an undiscounted contractual maturity analysis for non-derivative financial liabilities. The Entity does not hold any derivative financial liabilities directly. Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

c. Foreign Exchange Risk

The entity is not exposed to fluctuations in foreign currency.

d. Market Risk

(i) Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Entity is also exposed to earnings volatility on floating rate instruments.

The financial instruments that expose the Entity to interest rate risk are limited to lease liabilities, listed shares, government and fixed interest securities, and cash on hand.

The Entity also manages interest rate risk by ensuring that, whenever possible, payables are paid within any pre-agreed credit terms.

(ii) Other price risk

Other price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) of securities held.

The Entity is exposed to other price risk on investments held for trading or for medium to longer terms. Such risk is managed through diversification of investments across industries and geographical locations

Sensitivity analysis

The following table illustrates sensitivities to the entity's exposures to changes in interest rates and equity prices. The table indicates the impact on how profit and equity values reported at the end of the reporting period would have been affected by changes in the relevant risk variable that management considers to be reasonably possible. These sensitivities assume that the movement in a particular variable is independent of other variables.

F	Surplus \$	Equity \$
Year ended 30 June 2019		
+/– 1% in interest rates	9,800	9,800
Year ended 30 June 2020		
+/– 1% in interest rates	6,835	6,835

No sensitivity analysis has been performed on foreign exchange risk as the Entity has no material exposures to currency risk.

There have been no changes in any of the assumptions used to prepare the above sensitivity analysis from the prior year.

ENVIRONMENTAL DEFENDERS OFFICE LIMITED ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

Fair Values

Fair value estimation

The fair values of financial assets and financial liabilities are presented in the following table and can be compared to their carrying amounts as presented in the statement of financial position.

Differences between fair values and carrying amounts of financial instruments with fixed interest rates are due to the change in discount rates being applied by the market since their initial recognition by the Entity. Most of these instruments, which are carried at amortised cost (i.e. accounts receivables, loan liabilities), are to be held until maturity and therefore the fair value figures calculated bear little relevance to the Entity

	20	20	2019		
	Carrying Amount \$	Fair Value \$	Carrying Amount \$	Fair Value \$	
Financial assets					
- cash and cash equivalents	8,322,552	8,322,552	2,574,653	2,574,653	
- accounts receivable and other debtors	469,578	469,578	38,523	38,523	
Total financial assets at amortised cost	8,792,130	8,792,130	2,613,176	2,613,176	

	20	2020		19
	Carrying Amount \$	Fair Value \$	Carrying Amount \$	Fair Value \$
Financial liabilities - accounts payable and other payables	3,276,361	3,276,361	710,223	710,223
Total financial assets at amortised cost	3,276,361	3,276,361	710,223	710,223

Cash on hand, accounts receivable and other debtors, and accounts payable and other payables are short-term instruments in nature whose carrying amount is equivalent to fair value. Accounts payable and other payables exclude amounts provided for annual leave, which is outside the scope of AASB 9.

ABN 72 002 880 864

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

NOTE 15: CAPITAL MANAGEMENT

Management controls the capital of the Entity to ensure that adequate cash flows are generated to fund its mentoring programs and that returns from investments are maximised within tolerable risk parameters. The finance committee ensures that the overall risk management strategy is in line with this objective.

The finance, audit and risk committee operates under policies approved by the Board of Directors. Risk management policies are approved and reviewed by the Board on a regular basis. These include credit risk policies and future cash flow requirements.

The Entity's capital consists of financial liabilities, supported by financial assets.

Management effectively manages the Entity's capital by assessing the Entity's financial risks and responding to changes in these risks and in the market. These responses may include the consideration of debt levels.

NOTE 16: MEMBERS' GUARANTEE

The Entity is incorporated under the *Corporations Act 2001* and is a company limited by guarantee. If the company is wound up, the constitution states that each member is required to contribute a maximum of \$20.00 each towards meeting any outstanding obligations of the Entity. As at 30 June 2020, the number of members was 53.

NOTE 17: REGISTERED OFFICE AND PLACE OF BUSINESS

The registered office and principal place of business of the Entity is:

Environmental Defenders Office Limited Level 5, 263 Clarence Street, Sydney NSW 2000

Notes

- 1. Funds gifted as domestic, community-based grants only expended amount listed.
- 2. This includes Barristers' fees valued at \$300,663, Experts' fees valued at \$139,825, and Volunteers' services valued at \$40,984.
- 3. Grant from DFAT Solomon Islands Justice Project.
- 4. EDO NSW incurred fundraising expenses of \$205,601 during the 2019-20 year. Most of these expenses related to direct mail appeals to the public, regular giving and the major gifts program. None of these was directed to funding the international program. Consequently, it was determined that there were no materially significant fundraising expenses related to the International Program and therefore no fundraising costs are reported on the International Aid and Development Income Statement.

DIRECTORS' DECLARATION

In accordance with a resolution of the Directors of Environmental Defenders Office Limited, the directors of the registered entity declare that, in the directors' opinion:

- 1. The financial statements and notes thereon, as set out on pages 13 to 36, satisfy the requirements of the *Australian Charities and Not-for-profits Commission Act 2012* and:
 - a. comply with Australian Accounting Standards applicable to the registered entity; and
 - b. give a true and fair view of the financial position of the registered entity as at 30 June 2020 and of its performance for the year ended on that date.

There are reasonable grounds to believe that the registered entity will be able to pay its debts as and when they become due and payable.

This declaration is signed in accordance with subsection 60.15(2) of the Australian Charities and Not-for-profits Commission Regulation 2013.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ENVIRONMENTAL DEFENDERS OFFICE LIMITED

INDEPENDENT AUDITOR'S REPORT

To the Members of Environmental Defenders Office Limited

Report on the Audit of the Financial Report

Opinion

I have audited the financial report of Environmental Defenders Office Limited, which comprises the statement of financial position as at 30 June 2020, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the responsible entities' declaration.

In my opinion, the financial report of Environmental Defenders Office Limited has been prepared in accordance with Division 60 of the *Australian Charities and Not-for-profits Commission Act 2012*, including:

- (a) giving a true and fair view of the registered entity's financial position as at 30 June 2020 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and Division 60 of the Australian Charities and Not-for-profits Commission Regulation 2013.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the registered entity in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other Information

The responsible entities are responsible for the other information. The other information comprises the information included in the registered entity's annual report for the year ended 30 June 2020 but does not include the financial report and my auditor's report thereon.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

ABN 72 002 880 864

Responsibilities of Responsible Entities for the Financial Report

The responsible entities of the registered entity are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the ACNC Act, and for such internal control as the responsible entities determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, responsible entities are responsible for assessing the registered entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the responsible entities either intends to liquidate the registered entity or to cease operations, or has no realistic alternative but to do so.

The responsible entities are responsible for overseeing the registered entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or
 error, design and perform audit procedures responsive to those risks, and obtain audit evidence that
 is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material
 misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
 collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the registered entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by responsible entities.
- Conclude on the appropriateness of the responsible entity's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the registered entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the registered entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the
 disclosures, and whether the financial report represents the underlying transactions and events in a
 manner that achieves fair presentation.

I communicate with the responsible entities regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
